WORK EXPERIENCE

- Design, build, and maintain responsive WordPress websites for local businesses, private clients, and independent ventures.
- Customize theme layouts and UI elements using Elementor, WooCommerce, and custom CSS to match client branding and mobile-first standards.
- Configure automated communication channels and transactional flows, such as order alerts and appointment notifications, to streamline operations for business owners.
- Manage end-to-end site configuration including domain setup, database management, plugin compatibility testing, and asset optimization.

Professional Summery

Responsive, business-focused WordPress Developer specializing in custom site design, Elementor, WooCommerce, and PHP-driven customizations. Experienced in delivering production-ready websites for real clients and commercial use cases, including booking engines, eCommerce stores, and clinical service platforms. Dedicated to writing clean HTML/CSS, optimizing mobile performance, and structuring user-friendly content workflows that solve immediate business problems.

PROJECTS

Speech Therapy Clinic Website: Developed a complete, multi-page WordPress website for an active speech therapy practice using Elementor and modern responsive design patterns. Structured dedicated service sections, embedded clinical video media, and integrated consultation booking flows tailored to prospective patients. Applied custom CSS to ensure complete cross-device responsiveness, fast mobile load times, and accessible typography.

Automated Hospitality Checkout Engine : Designed and deployed an end-to-end hotel reservation pipeline. Engineered a custom PHP data injector to parse real-time transaction figures from client frames and pass details into the Chapa API gateway for Telebirr and local banking settlement.

Automated E-commerce Platform : Built a live, production-ready digital retail platform managing product catalogs, SKU inventories, categorized checkout funnels, and shipping details. Streamlined customer conversion paths with custom-styled product cards, sticky carts, and clear call-to-action triggers. Implemented instant administrative sales notifications via Telegram to allow real-time order fulfillment tracking without checking the dashboard manually.

SKILLS

- **CMS & Page Builders:** WordPress, Elementor, WooCommerce
- **Languages & Core Web:** PHP, JavaScript, HTML, CSS, SQL
- **Databases & Tools:** MySQL, PostgreSQL, Local/XAMPP, cPanel, FileZilla (FTP), Git
- **Integrations:** REST APIs, Payment Gateways (Chapa), Telegram Webhooks
